Thank you for joining the Be The Match Registry!

My life-saving pledge:

I give freely, knowing that it may save a life.

At your next blood donation, please join the Be The Match Registry. It takes only a few minutes, and you could save a life.

Will I be called?

No, you will not be called to donate bone marrow. We call only donors who are a match for a patient in need. Donors are automatically enrolled in the registry and are called only if their marrow matches a patient who is enrolled in the Be The Match Registry.

How can I help right now?

There are more than 100,000 patients on the Be The Match Registry who are searching for a bone marrow donor. You can help them find life-saving bone marrow by:

- Joining the Be The Match Registry
- Encouraging others to join the Be The Match Registry
- Donating bone marrow
